

FUNCTIONAL TRAINING SYSTEMS

PERSONALISED CONFIGURATION

- Standard 'A' frame legs
- Functional Tower upgrade - Dual legs
- Functional Tri Tower upgrade - Tri legs
- Stainless Steel Utility Rails

ULTIMATE IN SPACE EFFICIENCY

- 2.65 metres tall (to fit under 2.7m ceiling)
- 2.35 metres tall (to fit under 2.4m ceiling)

MODULAR DESIGN

Any length from 2 to 8 metres long, in 0.5m increments

QUICK & EASY SET UP

- Crossbeam eyelets for quick and easy 'clip on' of suspension straps
- Quick release 'lock in' accessory attachments
- Roller trolleys on the utility rail allows boxing bags or similar attachments to be conveniently slid and locked into position

EASY STORAGE

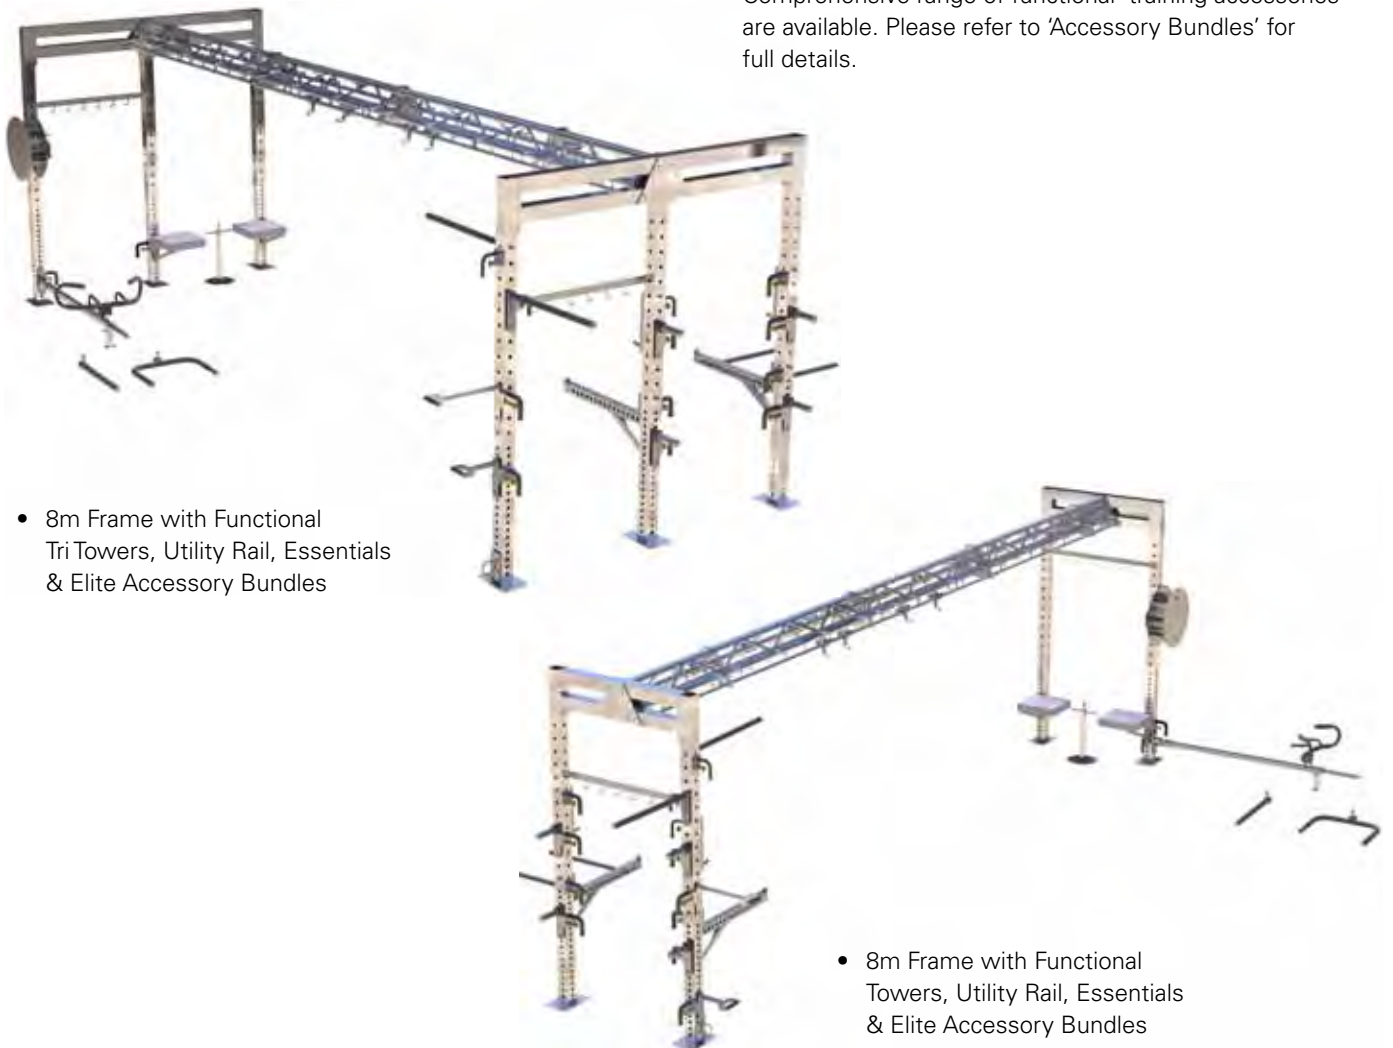

All accessories can be easily stored on the frame itself.

HEAVY DUTY/NON INTIMIDATING DESIGN

The frame is designed to withstand the rigours of a heavy duty training environment and yet not to look out of place whether positioned in the main gym or group fitness room.

UNLIMITED FUNCTIONAL TRAINING POSSIBILITIES

Comprehensive range of functional training accessories are available. Please refer to 'Accessory Bundles' for full details.

- 8m Frame with Functional Tri Towers, Utility Rail, Essentials & Elite Accessory Bundles

- 8m Frame with Functional Towers, Utility Rail, Essentials & Elite Accessory Bundles
