# POWER TOWER

*SynergyAIR Power Tower is an innovative and comprehensive range of ultra-heavy duty air displacement powered mechanical ergometers, designed to facilitate unprecedented strength and conditioning workout options that effectively cater for everyone, ranging from rehabilitation clients to high performance elite athletes.*

## **SYNERGY AIR POWER TOWER**

> **Dimensions: W 1250 X L 900 X H 2400 (mm)**

### **KEY FEATURES**

- > Patented integrated continuous variable transmission
- > Potential power range of well over one million watts at 150 step cycles per minute
- > Automatic range of movement variability up to 65 cm
- > Multiple operational modes, including:
  - » Total body » Stepping » Pulldown - Shoulder Press
  - » Chest Press - Row » Deadlift - squat

**THE ALL-IN ONE: POWERUP CLASSES | HIIT FUNCTIONAL TRAINING | PERSONAL TRAINING TOOL**

**SYNERGY AIR  
POWER CLIMBER**

**W 900 X L 1250 X H 1250 (mm)**

**KEY FEATURES**

- > Patented integrated continuous variable transmission
- > Weighted air displacement turbine with a variable gearing ratio range of 1:7 to 1:28
- > Power range of 5 watts @ 20 rpm to 44,000 watts @ 150 rpm
- > Multiple operational modes, including:
  - » Total body arm/leg cycling;
  - » Lower body cycling;
  - » Upper body chest press and row action.

**SYNERGY AIR  
BIONIC POWER CYCLE**

**W 700 X L 1300 X H 1470 (MM)**

**KEY FEATURES**

- > Patented integrated continuous variable transmission
- > Weighted air displacement turbine with a variable gearing ratio range of 1:7 to 1:28
- > Power range of 5 watts @ 20 rpm to 44,000 watts @ 150 rpm
- > Multiple operational modes, including:
  - » Total body arm/leg cycling;
  - » Lower body cycling;
  - » Upper body chest press and row action.

**SYNERGY AIR  
POWER CYCLE**

**W 600 X L 1300 X H 1470 (MM)**

**KEY FEATURES**

- > Patented integrated continuous variable transmission
- > Weighted air displacement turbine with a variable gearing ratio range of 1:6 to 1:24
- > Power range of 4 watts at 20 rpm to 14,000 watts @ 150 rpm
- > Independent crank mode allows the user to feel and rapidly physically learn the perfect peddle stroke bio-mechanics in order to be able to successfully ride with a coordinated peddle action.

**SYNERGY AIR  
POWER SWIM / PADDLE**

**W 610 X L 2340 X H 1420 (MM)**

**KEY FEATURES**

- > Patented integrated continuous variable transmission
- > Swimming and Board Paddling exercise options
- > Weighted air displacement turbine
- > Seat / Lying pad stability adjustment
- > Independent crack mode
